*Welcome aboard Historia.*

Evoking the spirits of yore, with the relevance of the modern day. Imagery of fluttering, cream linen curtains on an aged, wise deck; one with stories to tell and things that have been seen. Roving throngs of eager, curious tourists, marveling in the sensory delight of their surroundings; the majesty of ancient history, the lingering touch of the not-so-distant past and the undeniable influence of the enveloping present. Historia draws on elements of the unfamous boat's past, as well as a subtle nod to the roots and heritage of Egyptian culture. Communal lounges and dining rooms allow passengers to mingle and socialize, while also giving them the needed privacy for more relaxed experience.
