ITINERARIES

Our seven night cruise departs from Luxor and sails to Aswan, before returning to Luxor again.

The cruising itinerary for NAYERA dahabyea is unique in that it does not follow a specific itinerary with regular sites. This is a fully tailor-made affair, giving you a choice of the sites you would like to see during your Nile sailing experience.

Due to its small size, NAYERA dahabyea can dock more easily than a larger Nile cruise boat and so has the freedom to make the touring bespoke. There is the chance to see sites that are off the beaten track. One intriguing example the Valley of the Workers, was a self-contained village on the West Bank where the workmen who built the kings' and queens' tombs lived in mud brick houses with their families. The site gives archaeologists a view of how urban people lived in ancient Egypt. You can also visit the tombs that the workmen created for themselves, to admire the art in ordinary people's tombs.

ON-BOARD ACTIVITIES

Entertainment schedules during cruises are adjusted according to the needs of each group of guests and the exact sailing schedule.

However, every cruise on will include:
